MAC Fall Symposium, 2007, at Cranbrook

MAC's second annual fall symposium, focused on every aspect of scrapbooks, will take place October 12–13 at Cranbrook in Bloomfield Hills, Michigan. Scrapbook experts Susan Tucker, Newcomb College Center for Research on Women, Tulane University; Jennifer Hain Teper, University of Illinois Library, Urbana-Champaign; and other presenters will be focusing on the care, preservation, and use of scrapbooks in archival repositories.

Cranbrook, http://www.cranbrook.edu/, is the Michigan educational institution that is world renowned for its masterful blend of architecture, art, horticulture, and design. Located in the northern Detroit community of Bloomfield Hills, it is best accessed by automobile. There are a number of hotels nearby, including several in Birmingham, one of the Midwest's most vibrant and upscale small cities. Tours of the campus and meals will be included in the symposium registration. Mark your calendars and look to the July newsletter for additional details on both the symposium program and local arrangements. Further information also will be posted on the MAC Web site as it becomes available.
