A

- Aandahl, A. R., 76-86, 298, 299
- Acreage
 - allotment measures, 259-61
 - control of, 330
 - excess, 214-28
 - reduction methods of, 198
 - requirements, 131
 - selected crops, 82
- Adams, J. R., 108, 173, 181
- Adjustment
 - land and resource, 1-26
 - land use, and government, 278-97
 - magnitude of, 195
 - margin of, 17-19
 - programs for, 25-26
 - regional, 19-24
- Administrative considerations, 282-84
- Aggregate
 - supply and demand, 165, 319
 - surplus output in, 158-66
 - surplus resources in, 158-66
- Agricultural land, nonfarm uses, 49-60
- Agricultural production potentials, 125-39
- Agricultural products
 - foreign demand for, 46
 - output, 203
- Agricultural surpluses, 317-37
- Anderson, A. H., 306
- Anderson, J. R., 124
- Appraisal of programs, 229-36

B

- Bachman, K. L., 129

- Bailey, W. R., 82
- Barley yields, 178-79
- Barton, G. T., 176, 179
- Bates, O. W., 108
- Baumann, R. V., 171, 175, 176, 179, 181, 182, 211
- Bogue, D. J., 51
- Boles, D. E., 278-97
- Bottum, J. C., 193-99
- Boulding, K. E., 267
- Bressler, R. G., 200-213
- Brown, H. A., 108
- Businesses, types of Nebraska, 307

C

- Capital inputs, changes in, 172-75
- Carleton, W. M., 122
- Census regions, 205
- Central Prairie, subregion, 71-73
- Certificate schemes, 330
- Christensen, R. P., 171, 175, 176, 179, 181, 182, 211
- Chryst, W. E., 252-77
- Clark, C., 308
- Clawson, M., 49-60
- Climate
 - and cotton, 91-92
 - Great Plains, 78-79
- Cochrane, W. W., 212
- Community
 - multiplier, 308-9
 - organization of, 311
 - small, 306-8
- Conceptual model, 200-202
- Conservation, 323-24, 358
- Constitutional considerations, 278-86
- Constitutional powers, 362-63
- Consumption projections, 202-5

Consumption subsidies, 358

Corn

- and fertilizer, 135, 136
- and irrigation, 135
- potential production of, 66-68, 70-72
- production technology of, 62-64
- projected yields of, 175-78
- rotation and continuous, 65

Corn Belt, 61-75

Cotton

- acreage changes of, 89
- disease damage of, 95-96
- and economic factors, 95-98
- farms, 95-96
- and fertilizers, 99-100, 104-5
- and insect damage and control, 94-95, 105-6
- and mechanization, 106-7
- and moisture control, 91-92, 107
- production, 80, 87-109
- and soils, 92-93
- and technology, 102-7
- and topography, 93-94
- varieties, improved, 104-5
- yields of, 95, 98-103

Crickman, C. W., 74

Crops

- easement programs for, 196
- production ceiling rent
 - gradients of, 154
- production of major, 47
- production potentials of, 110-24
- proportions of land for, 98
- yields of, 131

Cropland possibilities and losses, 110-13

Cultural development, 327-28

D

Daly, R. F., 183, 203

Demand

- aggregate of, 165
- for agricultural land, 319
- curves, 160
- elements of, 242-43
- foreign, 46
- possibilities, 35-38

Dennis, C. C., 212

Duerr, W. A., 148

Dumenil, L. D., 75, 158-92, 220

E
