INTRODUCTION

The 2022 PSLLT conference was full of firsts. Most importantly, it was the first in-person conference since the beginning of the pandemic. Ongoing travel restrictions impacted registration, and final numbers remained in flux until the day before the conference as some delegates tested positive for COVID at the last minute, or experienced other restrictions related to the pandemic. Remarkably, no transmission was reported during the conference. Although fewer people attended than in recent years, those who were there really valued the opportunity to see their colleagues and friends in person after a cancelled conference in 2020 and a virtual conference in 2021.

Another first was the introduction of a public lecture at a PSLLT event: Murray Munro presented a highly entertaining and accessible lecture on *Foreign Accents: Their Mystique, Social Meaning and Scientific Significance.*

Although other PSLLT conferences have included presentations on Indigenous language pronunciation, this conference was the first to offer a featured presentation on language revitalization: Sonya Bird and Rae Ann Claxton spoke on *Pronunciation in the context of Hul'q'umi'num' language revitalization.* In addition, Indigenous language scholars were offered complimentary registration to the conference.

The theme of the conference was the same theme proposed for the cancelled 2020 conference: *Learning and Teaching Pronunciation in Diverse Contexts.* The Organizing Committee consisted of Ron Thomson, Tracey Derwing, Andrew Lee, & John Levis. Katarina Hiebert was the Conference Assistant and the following were student volunteers: Osama Chattha, Caroline Duarte Ramos Avila, Jordan Gallant, Alyssa Gauthier, Xiaojun Liu, Alessandra Perri and Laura Stansfield.

The organizers are grateful to the 36 abstract reviewers for their helpful feedback.

In Salt Lake City, Ames and Flagstaff, pre-conference workshops were offered. The 2022 PSLLT also had two stellar pre-conference workshops. *How to build and contribute to spoken corpora for L2 pronunciation research* was presented by Amanda Huensch (in person) and Romy Ghanem and Shelley Staples (via Zoom). *Investigating the phonological structure of the L2 lexicon: Designing and conducting experiments* was prepared by Rachel Hayes-Harb and Shannon Barrios. Unfortunately, Rachel was unable to attend in person at the last minute, but Shannon did a great job.

It is customary to have a single plenary at PSLLT. Malgorzata (Gosia) Baran-Łucarz presented a comprehensive examination of individual differences in her talk, entitled *Show me who you are... ’Re-examining the role of individual differences in L2 pronunciation learning and teaching.*

Another highly popular featured presentation was offered by Mary Grantham O’Brien, who spoke on *Pronunciation training in the absence of native listeners.*
Following the usual format of PSLLT conferences, the Poster Session was held at lunch time, and conference delegates were offered boxed lunches, so that they could take the time to really closely examine several of the posters.

As usual, the posters and presentations were of very high quality, as was the Teaching Tips session at the end of the conference.

The conference dinner offered another first, in that it was the first banquet to be held in a winery. Conference-goers were shuttled to the venue in disco buses – that was another first and likely a last! An unusual feature of the conference dinner was the inclusion of a presentation given over dessert. This included a video of a man of dubious origins who was somewhat reminiscent of a hoser from the 1970s, judging from his hair and clothing (‘hoser’ is a Canadian term made popular on SCTV by Bob and Doug McKenzie, meaning ‘uncultivated person’). The presentation, *To say PSLLT or PSLLT, that is the question*, started with the following premise: Levis (2016) hypothesizes the existence of a geographically-determined preference for pronouncing PSLLT as [ˈpʰɪsəlt] (as opposed to [ˈpʰiɛsɛlɛlti]). More specifically, his hypothesis claims that this preference is most pronounced (no pun intended) among populations residing north of the 49th parallel. The presenter went on to show that, in fact, the first form is used in many diverse geographical settings, including Melbourne, Australia.

After the presentation, which left all but a few confused people in stitches, Tracey Derwing briefly summarized John Levis’ many contributions to the field of L2 pronunciation, and Murray Munro led the banquet attendees in a toast to John. The disco buses then took the attendees to Niagara Falls to see the falls by night.

Following another day of successful presentations, Ron Thomson and Andrew Lee thanked everyone who contributed to a successful 13th annual PSLLT conference. They also acknowledged the sponsors and publishers who offered support:

**Sponsors**
- Social Sciences and Humanities Research Council of Canada
- Exchange Grant, Brock University
- Brock Conference Services
- Office of Research Services
- Brock University VP Research
- Brock Faculty of Social Sciences Dean’s Supplemental Funding

**Publishers**
- Equinox
- Multilingual Matters
- De Gruyter
- John Benjamins
- Routledge
- Wiley
THE 13th PROCEEDINGS

As a consequence of the smaller numbers of participants at the 2022 PSLLT Conference, these proceedings contain fewer papers than in previous years. In keeping with the conference theme, however, they represent a remarkably diverse range of topics, including numerous studies utilizing technology to teach L2 pronunciation, in addition to studies of classroom-based instruction and L2 pronunciation learning in informal contexts. One paper argues that we should extend our definition of what constitutes acceptable L2 pronunciation to Expanding Circle World English contexts. Another paper provides an autobiographical sketch of the hazards of learning to pronounce words in a foreign language. In addition to a diversity of topics, the papers in this volume comprise a wider than normal range of L2 pronunciation targets, including English, Mandarin, French, Polish, Arabic, Mohawk and Seneca (the latter two being Indigenous Canadian languages). The volume concludes with four new Teaching Tips for learners of English, Mandarin and German.

The organizers encourage members of the pronunciation community to attend upcoming PSLLT conferences and to contribute if they have research or a teaching tip to offer.

ABOUT THE AUTHORS

Ron Thomson is Professor of Applied Linguistics and TESL at Brock University. His research focuses on the development of L2 pronunciation and oral fluency. He is also the creator of www.englishaccentcoach.com, a freely available pronunciation teaching and research platform, which utilizes High Variability Phonetic Training (HVPT).

Tracey Derwing is Professor Emeritus at the University of Alberta and an adjunct professor at Simon Fraser University, Burnaby, BC.
TABLE OF CONTENTS
PROCEEDINGS OF THE 13th ANNUAL PRONUNCIATION IN SECOND LANGUAGE LEARNING AND TEACHING CONFERENCE

INTRODUCTION

Ron I. Thomson & Tracey M. Derwing

PRESENTATIONS AND POSTERS

1. Learning English Word Stress with Technology https://doi.org/10.31274/psllt.16142
   Veronica G. Sardegna & Anna Ewa Jarosz

2. Effects of self-imitation practice on L2 pronunciation with the use of a Golden Speaker Builder – an interactive tool for pronunciation training
   https://doi.org/10.31274/psllt.15721
   Ewa Kusz

3. The Use of Visual Feedback to Train L2 Lexical Tone: Evidence from Mandarin Phonetic Acquisition https://doi.org/10.31274/psllt.15715
   Alexis Zhou & Daniel Olson

   Kossi Seto Yibokou

5. Fluency Benchmarks and Impacts of Practice With Instantaneous Assessment on International Teaching Assistants' Speech Rate and Pause Units
   https://doi.org/10.31274/psllt.15711
   Kevin Hirschi, Okim Kang, John Hansen & Stephen D. Looney

6. It's Not a Pronunciation Error – It's a New World English Variety Being Born!
   https://doi.org/10.31274/psllt.15713
   Dariusz Jan Skotarek

7. Adventures in Mispronunciation: A Reflection on Mispronouncing Words in a Foreign Language https://doi.org/10.31274/psllt.15720
   Brandon Martin

8. High Variability Pronunciation Training (HVPT): Using Different Stimulus Talkers and Sound-To-Symbol Associations in L2 Pronunciation Learning
   https://doi.org/10.31274/psllt.15695
   Kelsey Lynn Labbé
9. Online Teaching During COVID-19: Exploring the Relationship of CALL Training and Beliefs about Pronunciation Teaching  
   https://doi.org/10.31274/psllt.15688  
   Shannon McCrocklin, Eva Messener, McKenzie Johnston, Abdulsamad Humaidan, Rachel Stuckel, Eugenie Mainake, Tetsuya Aboshi, Ian Johnston, Claire Fettig & Tatiana Lunina

10. Corrective Feedback on Arabic Pronunciation: Teacher Beliefs and Practices  
   https://doi.org/10.31274/psllt.15714  
   Asmaa Shehata

TEACHING TIPS

11. Using an Inductive Approach to Teach Pronunciation  
   https://doi.org/10.31274/psllt.15702  
   Ines Martin & Lieselotte Sippel

12. Phonetic Flooding: Immersing L2 Mandarin Learners in Tone Minimal Pairs with Ambiguous Context to Force Noticing and Enhance Lexical Encoding of Tone  
   https://doi.org/10.31274/psllt.15706  
   Vance Schaefer

13. Using Chopsticks to Distinguish /l/ and /n/  
   https://doi.org/10.31274/psllt.16062  
   Marsha J. Chan

14. Bridging the Theory to Practice Gap: Incentivizing Teachers to Access the Research Via Short Form Videos  
   https://doi.org/10.31274/psllt.16093  
   Marnie Reed & Di Liu
