#### KEY REFERENCES TO THE NON-MARINE MOLLUSCA OF ALASKA

The basic reference for the state of Alaska is Dall's account, No. 1, below. The nomenclature is somewhat out of date but the work remains usable. Other references published after Dall's work are given. The record of fossil freshwater Mollusca of the state remains to be assembled. One rare, though rather old work (Mayer, 1869) is listed.

Additions to this list will be welcome. This is the first of the state and provincial lists of non-marine Mollusca which it is planned to print in *STERKIANA* from time to time.
